The New Dawn for Syria's Agriculture

Syria's agricultural land tells a story of ancient fertility and enduring strength. After years of challenges, the nation is embracing a transformative future. The agricultural sector a cornerstone of economic development, food security, and cultural heritage is now entering a modern era of innovation and resilience.

AgriTEK Syria 2026 is the premier platform to showcase, discover, and partner in advancing a technologically advanced and sustainable agricultural landscape. Join us in building Syria's agricultural future.

The Imperative for Innovation

Key Figures & Sector Landscape

GDP Contribution

Agriculture accounted for 43.06% of Syria's GDP (2022), highlighting its economic significance.

Employment & Livelihoods

Over 1 million people are employed in agriculture (~19.4% of total labor force). More than 44% of population in rural areas depend on farming.

Food Security

Over 14 million people require food assistance (late 2024), worsened by droughts and economic instability.

Production Challenges

- **Wheat:** Estimated 922,000 tons, down from 2.4 million tons the previous season
- **Cereals:** Total harvest ~1.2 million tons, 60% below pre-crisis average
- **Olive Oil:** 95,000 tons, 24% decrease from previous season
- **Cotton:** 14,419 hectares planned, reflecting significant decline

Major Recurring Challenges

- **Drought & Climate Shocks:** Affecting ~74% of rainfed areas
- **High Input Costs:** Seeds, fertilizers, and fuel with limited financial capacity
- **Infrastructure Damage:** Irrigation system failures and low river levels

Why Attend AgriTEK Syria 2026

For Exhibitors

- **First-Mover Advantage:**
Engage with government decision-makers, investors, and farmers driving agricultural rebuilding
- **Address Pressing Regional Challenges:**
Showcase solutions for water efficiency, climate-smart farming, renewable energy, greenhouse production, and post-harvest management
- **Forge Strategic Partnerships:**
Connect across the entire agricultural value chain in a professional environment

For Visitors

- Discover **latest agri-tech innovations**
- Source **equipment, inputs, and sustainable solutions**
- Gain insights into **modern farming practices and productivity improvement**
- Network with **global and local suppliers, investors, and development projects**

Concurrent Activities

- **Syria's Future Farming Forum**
A high-level conference with officials, international agencies and experts, and farming stakeholders will address Syria's national agriculture strategy and solutions.
- **Live Demonstration Zone**
Hands-on demos of irrigation, drone spraying, precision planting, tractors, and harvesters
- **B2G & B2B Matchmaking Program**
Pre-scheduled meetings with government, cooperatives, farm owners, and international decision-makers

Exhibit Profiles

AgriTEK Syria 2026 covers the full agricultural ecosystem:

- **Inputs & Crop Nutrition**

Seeds, fertilizers, crop protection, soil nutrition, pesticides

- **Irrigation & Water Solution**

Pumps, pipe systems, water management, treatment

- **Structures & Controlled Environment:**

Greenhouses, nurseries, floriculture, cold storage

- **Mechanization & Machinery:**

Tractors, harvesters, sprayers, handling systems, machinery parts

- **Post-Harvest & Logistics:**

Packaging, refrigerated transport, cold chain solutions

- **Animal Husbandry & Veterinary**

Animal health, breeding, feeds, dairy equipment

- **Poultry Technology:**

Feeding & watering systems

- **Aquaculture & Specialty Farming:**

Fish farming, beekeeping, honey production

- **Sustainability & Energy**

Renewable energy, organic farming, waste management

- **Precision & Smart Farming:**

IoT sensors, drones, GPS/GIS, farm management software

- **Support Services:**

Agri-finance, insurance, consulting, equestrian services

ORGANIZERS

IFP in collaboration with Alfa for Exhibitions

International Fairs and Promotions (IFP) is a leading regional trade fair and event organizer with global reach, bringing over 45 years of experience and a track record of more than 660 successful exhibitions and conferences in the MENA and GCC region.

Alfa for Exhibitions is a Syrian exhibitions organizer specializing in trade fairs that foster business growth and collaboration across Syria's key economic sectors.

Together, this partnership delivers high-impact trade events that provide local and international companies with platforms to showcase products, explore business opportunities, exchange expertise and build strategic partnerships in the Syrian and broader regional markets.

VENUE

Damascus Fairgrounds

Located in the heart of Syria's capital, the Damascus Fairgrounds is a premier venue for exhibitions and conferences. With modern facilities, ample space, and excellent accessibility to government offices, business districts, and cultural landmarks, it provides an ideal setting for AgriTEK Syria 2026. Equipped with advanced technology and flexible event spaces, the Fairgrounds ensures a seamless experience for networking, presentations, and business matchmaking.
