GEO THERMAL INVESTMENT FORUM CROATIA

ZAGREB, 3- 4 MARCH 2025
Sheraton Zagreb Hotel

Why Croatia?

Croatia is one of the **newest hotspots** on the **geothermal map of Europe**

The Pannonian Basin, situated in Croatia and the neighbouring countries, has a **60 percent higher geothermal gradient** than the European average. This presents a **massive investment potential**

Croatia has made an extraordinary step forward in the promotion of **its geothermal opportunities**, which has been recognized by a number of relevant investors who are **already present in Croatia**

Croatian Hydrocarbon Agency has produced **maps of potentially interesting geothermal areas** and all wells according to source temperature and well permeability – available to future investors through **Virtual Data Room**

The first international geothermal conference in Croatia

The event aims to bring together experts in the field, industry representatives, government officials and EU institutions to discuss potentials of the Republic of Croatia and the European Union in producing exploring opportunities in geothermal energy.

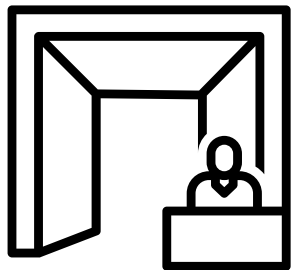

Key topics

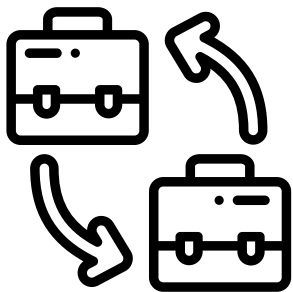

1. Encouraging investments in geothermal energy and ensuring optimal funding.
2. Geothermal power plants – how to overcome initial hurdles and initiate production
3. Geothermal energy in agriculture.
4. Geothermal energy in district heating.
5. Regulatory framework and national-local authority cooperation.

The Expo

The Expo will include **the most relevant local and regional government representatives** from Croatia and wider Europe showcasing their **geothermal projects** to future and **potential investors**.

Designated area for **B2B meetings**.

Presence of the **most relevant** international and local **financial institutions** and **private investors**.
