ALKOHOLIC

HAND SANITIZER

GraboSept is a disinfectant liquid that does not require dilution or rinsing and can be used directly on the skin surface. Excellent for hygienic hand disinfection. It is simple and safe to use, so it is recommended for use in both residential and institutional, business environments (e.g. hospitals, schools, public institutions, offices, high-traffic public spaces, etc.).

Thanks to its skin protecting additive, it is gentle on the hands even after frequent use and leaves a clean, pleasant skin feeling.

100 g of solution contains 70 g of ethanol active ingredient.

Wide spectrum of action: can also be used to protect against bacteria and viruses.

Field of application

Hand disinfection in residential and institutional, operating conditions (e.g. in hospitals, schools, institutions)

**WITH
VIRUCIDAL AND
BACTERICIDAL
EFFECT**

FEATURES AND BENEFITS
